

The research proposal: How to convince reviewers to fund your research – focus SNSF

Description and objectives

The objectives of this workshop are:

- Receive information about funding organizations and suitable funding possibilities especially for women researchers (Switzerland with focus on SNSF)
- Connect information to academic level and career planning of the participants
- Know the most important features about planning and preparing an application
- Know all elements of writing a convincing research proposal and project
- Receive Tipps & Tricks, Do's & Don'ts – focus SNSF
- Practical exercises: work on the first part of an application towards SNSF. (This part will be prepared by the participants before the workshop and according to the trainer's requirements)
- Group coaching: participants present and discuss their concept within the group and receive individual feedback by the trainer

Approach

- Theory by the trainer combined with interactive exercises
- Practical exercise: individual work, group discussion and feedback
- A lot of time for Q&A
- This workshop will be organized as an online training session (Zoom)
